

ASC Info Pack for Participants
Independent Youth Festival of Electronic Music Summer3p
Season 2009

ASC Info Pack for Participants compiled and published by:

Association of citizens "**ASC**"
"Veselo jezero" Ltd.

Palic, June 2009

a few words of welcome...

Dear Participant,

We are looking forward to meeting you, working and spending some time together during the Independent Youth Festival of Electronic Music Summer3p. In this pack you will find a brief presentation and the day-by-day programme. We hope that you will consider participating in this exceptional opportunity to experience another culture...

This booklet gives you information about the aims and objectives of our association, the programme of the festival and our educational approach.

Should you have any questions, suggestions, comments or proposals - please do not hesitate to contact us at any time. We will respond as quickly as we can!

duration

The duration of the festival is from Thursday 23th July till Sunday 26th July 2009.

about us

The "AŠC" Association of Citizens aims to work on the improvement of cultural facilities, especially for young people in the areas of sports, music and art through direct engagement, trainings, promotional meetings, campaigns and various cultural events.

The Summer3p Festival was initiated in 2003 with its primary goal to stir up the youth of Subotica and to offer them different and higher standard entertainment. S3P is located at the thermal pools near Lake Palić, which is a famous tourist destination in northern Serbia. In the first two years our festival was a single-day event, but the feedback of the audience was extremely positive, so we extended the festival period to 8 days in 2005. That move proved to be very successful and what started as a one-night party began to transform into a mini - festival. People were entertained by various DJs while having fun in the pool. They were also very active in various art workshops and sport competitions. The campaigns "STOP THE VIOLENCE!" and "PROTECT THE NATURE" were conducted during the festival. From 2007 the festival lasts for 4 days, under the title "Independent Youth Festival of Electronic Music - Palić".

This summer the organizers have made efforts to provide even more interesting and more various types of programme for the visitors. There is around 30 foreign and domestic performers, dj's, live acts. There is also a greater number of creative workshops and exciting side events.

last but not least

Palic/Serbia from 23-26th July, 2009
weather forecast in advance: mostly sunny 19-35°C
sunrise: 5:04 AM / sunset: 8:24 PM

what to bring

- your artistic skills... Have you got any hidden talents? Impress us!
- endless amounts of good mood and motivation for work and leisure!
- some cool pieces of music from your country or region or anywhere else
- a swimsuit and a huge, nice and fluffy towel

location

Lake Palic - Thermal Pools, Serbia

Palić, a small town and a lake with the same name, is located 8 km from the town of Subotica. It is situated in the very north of Vojvodina, northern part of Serbia, 20 km from the Serbian/Hungarian border.

Lake Palić is situated between the Danube and the Tisa rivers. It is 7 km long and its average depth is 2 m. Palić is characterized by a mild climate, a lot of sunny hours per year and favorable winds.

The lake, salty with therapeutic mud and water in the past, met its climax as a spa and an elite resort at the turn of the 19th and 20th centuries. The resort has a unique ambiance that is a combination of natural beauties, colourful villas most of them built at the beginning of the 20th century and architectural heritage made up of monumental buildings built for pleasure and rest: the Water Tower, the Great Terrace, the Musical Pavilion and the Women's Beach.

These buildings, festively opened in 1912, were designed in neo-romantic style, i.e. its Hungarian variation (secession) - which found inspiration in Hungarian folklore, peasant handcraft, lace and embroidery.

Today, at Palić there are a few quality hotels, excellent restaurants and cafe bars, sports grounds, a zoo, three beaches, bicycle paths, promenades, cultural, entertainment and sports programmes.

campaigns

- "Stop the violence!"

The interactive workshop introduces the practice of anti-violent forms of communication. Participants will work on their self-knowledge and building relationships efficiently.

- "Preserve nature!"

The educational workshop promotes selective waste collection, or sorting waste such as paper, glass and plastics in separate disposal bins. Recycling and other creative ways to use domestic waste will be display and practiced in order to emphasize the importance of environment protection.
